**ASSESSOR** 

The assessor's duty to the citizens of this township is to fairly and impartially assess all property on an equal basis so that each citizen will pay his fair share of taxes and no more.

The assessor must also do this in sufficient time to turn over his books to the Board of Review for their work on them so that they will not have to stay in session for a prolonged time.

The Board of Review costs the county a large amount of money if they are required to stay in session for a long period of time, and unless they receive the assessor's books in time they must stay in session until they are completed.

I am 55 years old, married and have 2 children in my home to take care of. I have resided in this township practically all my life and know the importance of saving money for tax payers.

I am a working man, having worked on the railroad since 1922, and will treat everyone fairly and impartially and do my utmost to save the tax payers every cent that I can save them by completing my work in the time allotted for that purpose.

I have taken extension work in accounting and bookkeeping and have served as clerk for the New York Central in keeping books and accounts and am the Treasurer for the New York Central Employees Credit Union and believe that I am competent to accurately make assessments in this township.

Your vote and influence will be deeply appreciated.
